

Welcome To

faded.

www.fadedinstruments.com

I'm Slimer FM.

I'm a very basic FM Synth, but I have no modulators. Instead, I have an audio input - and you can use that audio input to FM or PM modulate me. You can send me any signal you want - drums, vocals, synths, etc. You can even put all sorts of crazy effects in the FM chain to get some pretty ridiculous sounds.

If you want to find out more about me:
